# Campus is a Social Graph. Dating is Only One Use Case.

TheCollegeDate starts with romantic connection, then expands into a trusted student-to-student social layer.

THE CORE IDEA

## Build the place where students find people who are already part of their world.

Campus context makes discovery infinitely more relevant than a generic dating pool. Students live by shared routines: lecture halls, faculty rivalries, departmental courses, and hostel clusters.

**01 Hyperlocal Context Over Generic Swiping**

Filtering by University, Faculty, Level (100L–600L), and Hostels connects people who can actually walk over and meet between lectures.

**02 Mutual Trust as the Retention Backbone**

Vision AI photo verification, NDPA 2023 compliance, and zero phone-number exposure eliminate the harassment common on open apps.

**03 The Multi-Utility Campus Super-App**

Dating creates the acquisition hook; confessions, voice calls, virtual gifts, and assignment escrow deepen daily engagement and lifetime value.

# Students Have People Around Them — But Discovery is Fragmented.

4 Structural Flaws Why Tinder, Bumble & Western Apps Break Down on African Campuses

### 1. GENERIC DATING & ZERO CAMPUS CONTEXT

**The 40-Kilometer Traffic Mismatch**

Broad apps are built for corporate professionals in London or New York. On campus, students want to meet someone in their hostel or faculty — not an executive 40km away across metropolitan traffic gridlock.

Result: Irrelevant match feeds and immediate app abandonment.

### 2. CATFISHING & SEVERE SAFETY ANXIETY

**Women Cannot Trust Open Feeds**

Unverified anonymous accounts create rampant extortion, fake profiles, and harassment. Over 70% of female undergraduates report feeling unsafe on generalist dating apps where anyone can register without student proof.

Result: Female liquidity freezes; male users churn due to zero replies.

### 3. CRIPPLING CELLULAR DATA & STORAGE BLOAT

**85MB–120MB Data Hogs on 3G Phones**

Western apps are engineered for unlimited Western 5G. Nigerian students paying ₦1,500/GB on low-tier Android phones cannot afford continuous background video ads and oversized app bundles.

Result: Frequent uninstallation to free up device RAM and storage.

### 4. FOREIGN CURRENCY & PRICING FRICTION

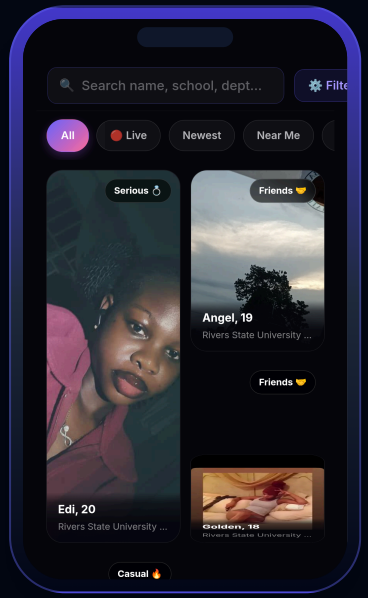

**Dollar Paywalls Reject Nigerian Debit Cards**

Tinder charges $15–$30/month (₦25,000+) requiring foreign currency cards that 98% of Nigerian students do not possess. There are zero micro-transaction options tailored to student pocket money.

Result: Zero monetization conversion on African campuses.

# A Complete Campus Connection Loop — From Profile to Real Value.

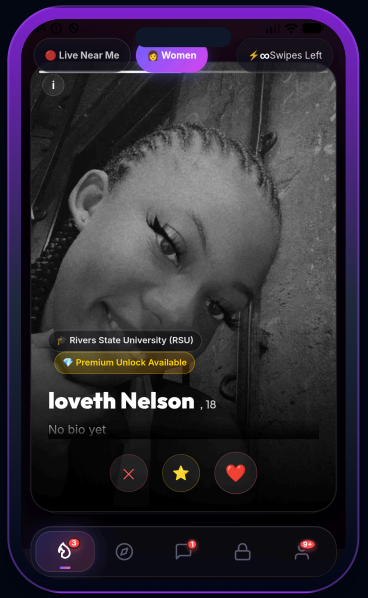

Live Android Production Screenshots Across Discovery, Matching, Real-Time Conversations, and AI Trust

1. DISCOVER

**Explore Grid & Camera Finder**

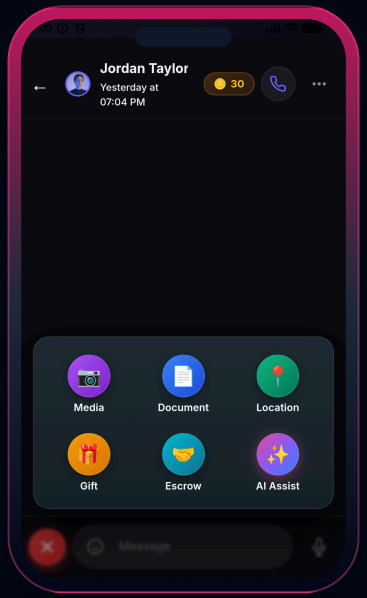

Faculty filters + 📸 Camera Face Search

2. MATCH

**Mutual Swipe Stack**

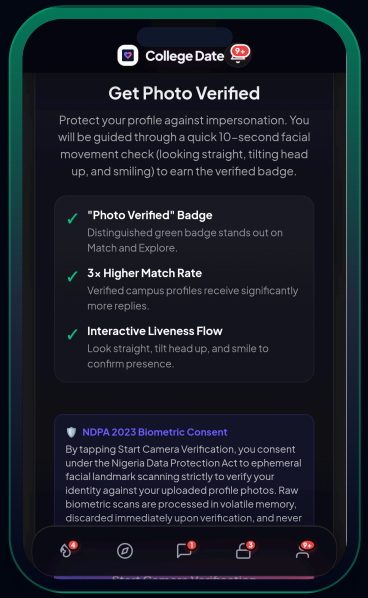

Verified badges + university affiliation

3. CONNECT

**Rich Chat & Agora Voice**

Stickers, audio notes & private calls

4. VERIFY

**Vision AI Verification**

Single-human face check & NDPA safety

# The Platform is Broader Than a Swipe-and-Chat App.

8 Hardened Production Pillars Powering The College Date Ecosystem

01 • CAMPUS MATCHING

### Hyperlocal Discovery

Filtered by University, Faculty, Department, Level (100L–600L), and Hostels. Matches students within walking distance.

✓ Live on 170+ Campuses

02 • CAMPUS FINDER

### AI Camera Face Search

Students snap or upload a photo to discover matching student profiles, protected by strict NDPA 2023 privacy safeguards.

✓ Built-In Camera Modal

03 • AGORA IN-APP CALLING

### Private Voice & Video

Encrypted, bandwidth-efficient Agora RTC audio/video calls without exchanging private WhatsApp phone numbers.

✓ Zero Phone Number Exposure

04 • VISION AI VERIFICATION

### Automated Identity Trust

Rejects group photos, non-human pictures, or cartoons. Confirms single real student facial liveness before verified badge issuance.

✓ 151 Verified Profiles

05 • CAMPUS CONFESSIONS

### Viral Expression Wall

Anonymous campus secrets, upvotes, and comment drawers that students screenshot and post directly to WhatsApp Status.

✓ Organic Retention Engine

06 • CD COINS & GIFTING

### Virtual Gifting Store

Virtual coin wallet allowing users to send roses, chocolates, perfume, and cultural gifts that recipients can cash out.

✓ Peer-to-Peer Cash Wallet

07 • STUDENT SERVICES ESCROW

### Academic Freelance Deals

Built-in escrow system for student tutoring, assignment proofreading, and campus gigs with 5% transaction commission.

✓ Escrow Protection Layer

08 • TERMII LOCAL SMS & CRM

### Omnichannel Retention

₦4.50 local SMS routing across MTN, Airtel, Glo, 9mobile + automated OneSignal lifecycle journeys for streak defense.

✓ Verified Carrier LOAs

# Early Usage is Real. The Foundation is Set for Repeatable Scale.

Organic Adoption, High-Intent Monetization Inquiries, and Production Stability

REGISTERED ACCOUNTS

**871**

Total student signups across campuses

151 Verified Student IDs

CAMPUS ACTIVITY

Validated cash revenue to date

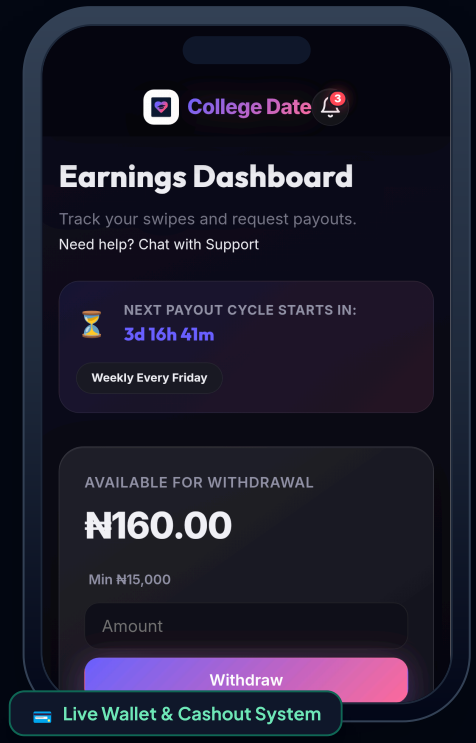

2 Subscriptions + 4 Services

MOBILE APP STABILITY

**v2.2.63**

Google Play Version Code 60

0 Crash Rate on Android 15

EARLY MONETIZATION INTENT SIGNAL

### Users are Inquiring to Pay Before Marketing Begins

Multiple students have contacted our official WhatsApp support specifically asking whether paying for Premium will unlock unlimited swipes and campus discovery. These inquiries prove real willingness to pay; our task now is automating frictionless local payments.

# A Diversified Multi-Stream Campus Monetization Engine.

Aligning Student Purchasing Power with High-Frequency Social & Economic Utilities

**01 Tiered Subscriptions (Paystack & RevenueCat)**

Weekly (₦1,200), Monthly (₦3,500), and Semester (₦8,500). Unlocks unlimited swipes, see who liked you, rewind, and verified campus badge.

**02 CD Coins & Virtual Gifting Store**

Low-friction coin packs (₦500 to ₦10,000) for sending virtual gifts (Roses, "Chop Life", Perfume) and direct chat unlocks. Recipients cash out real naira to their bank.

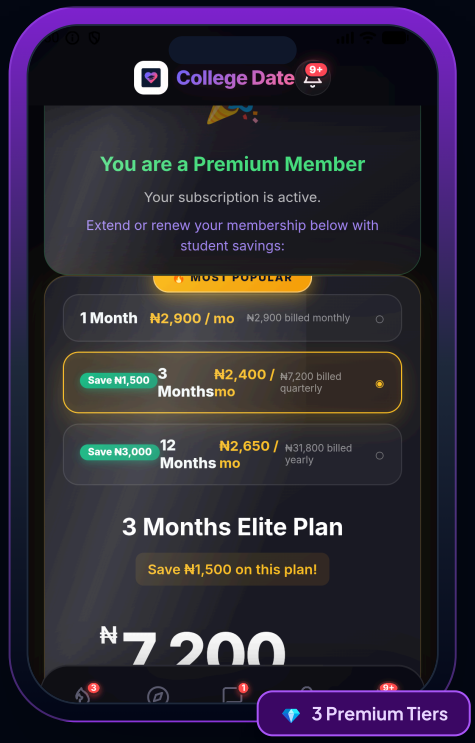

**03 Campus Freelance & Escrow Marketplace**

5% platform fee on student-to-student service transactions: course tutoring, assignment proofreading, hostel assistance, and freelance campus gigs.

**04 Campus Brand Drops & Event Sponsorships**

High-intent sponsored cards and campus event ticket distribution partnering with local student brands, telecoms, and food vendors.

💡 Key insight: Trust is our primary conversion variable. Solving payment friction with local bank transfer unlocks student liquidity.

# Africa is Young, Connected and Increasingly Digital.

The Structural Tailwinds Driving Explosive Demand for Hyperlocal Youth Platforms

**1.55B**
**AFRICA POPULATION**
UN-linked demographic census

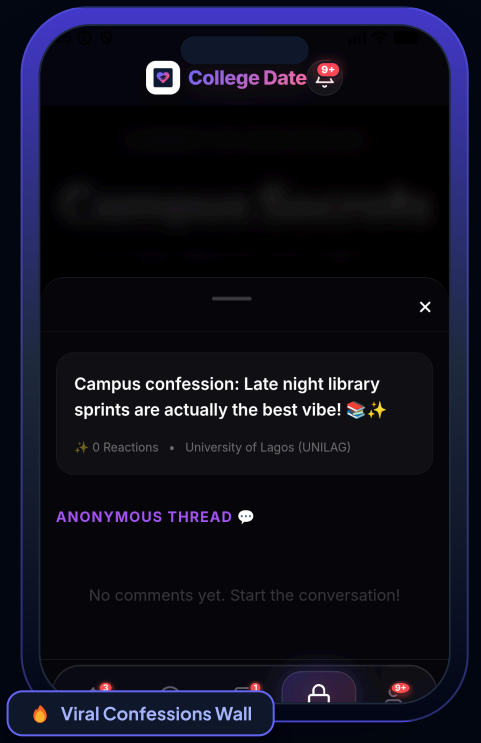

**75%**
**UNDER 35 YEARS**
Youngest global continent

**107M**
**NIGERIA INTERNET USERS**
DataReportal 2025 Report

📈 **UNESCO Tertiary Surge:** Global higher education reached 269M in 2024. Sub-Saharan Africa's participation rate is only 9% today, representing the largest headroom for university growth worldwide.

📱 **Campus Smartphone Saturation:** Over 94% of Nigerian university students own an Android smartphone, using mobile apps for lecture updates, faculty chats, and peer payments.

NG **Digital Youth Economy:** 38.7M social media identities in Nigeria. Gen-Z students are eager for homegrown platforms that understand local slangs, hostel humor, and micro-income opportunities.

✦ College Date captures this tailwind by designing around the single highest-density youth habitat: **the university campus**.

# Start With Students. Expand Into the Campus Ecosystem.

A Multi-Billion Naira Market Opportunity Across African Higher Education

**TAM • AFRICA HIGHER EDUCATION** — **$520M / 17.5M Students**

17.5 million higher-education students across Sub-Saharan Africa (Nigeria, Ghana, Kenya, South Africa, Rwanda). Sized across dating subscriptions, virtual gifting, and peer escrow commerce.

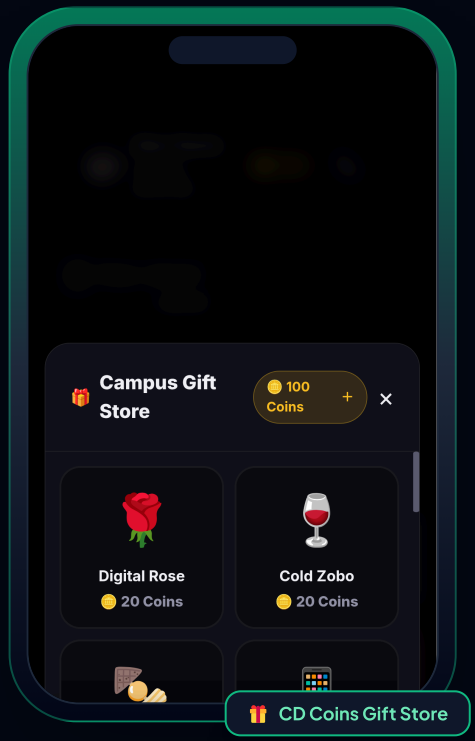

**SAM • NIGERIA HIGHER EDUCATION** — **$84M / 2.8M Students**

Nigeria Federal Ministry of Education and JAMB strategic roadmap reports ~2.8M students enrolled across 170+ accredited universities and polytechnics.

**SOM • 36-MONTH MANAGEMENT TARGET** — **$3.0M / 100,000 Students**

Targeting 100,000 active students across the top 15 high-density university clusters (UNILAG, UNIPORT, OAU, UNIBEN, UI, ABU). Projected annual ARPU of ~$30 through subscriptions, coins, and escrow.

*TAM/SAM are demographic population estimates; SOM is a management financial target refined against CAC and campus density.

# The Category is Proven. The Wedge is Campus Context.

How TheCollegeDate Out-Executes Global Incumbents on African Campuses

| PLATFORM CAPABILITY | THE COLLEGE DATE | TINDER | BUMBLE | BADOO |
|---|---|---|---|---|
| Campus Graph & Hostel Filtering | ✓ Dedicated Core Architecture | Partial ("College Mode" in US) | None (Generic GPS) | None (City-wide) |
| Mobile Footprint & Data Overhead | ✓ 14.1 MB Ultra-Lean APK | 85 MB+ (Data Heavy) | 110 MB+ (Data Heavy) | 95 MB+ (Data Heavy) |
| In-App Voice/Video (No Phone #) | ✓ Encrypted Agora RTC | Paid feature only | Basic video only | Basic video call |
| Vision AI Student ID Verification | ✓ Vision AI Single-Face Check | Generic selfie angle | Generic selfie check | Generic pose check |
| Peer Micro-Economy & Escrow Deals | ✓ CD Coins + Tutoring Escrow | None (0 earning utilities) | None (0 earning utilities) | None (0 earning utilities) |
| Localized Payment Methods | ✓ Naira Bank Transfer / Paystack | Foreign USD cards only | Foreign USD cards only | Limited local billing |

Strategic Positioning: Large incumbents validate consumer dating demand. College Date owns the localized campus wedge, trusted identity layer, and peer micro-economy.

# Win Campus by Campus — Then Let Density Compound.

Zero-Dollar Customer Acquisition Through Co-Founder Media Reach and Campus Networks

1. CO-FOUNDER MEDIA MOAT

### Official Students O'clock

Co-Founder SOKEPIRIM Jackreece reaches **50,000+ daily student followers** across university WhatsApp networks. Zero-cost broadcast from Day 1.

2. CAMPUS AMBASSADOR CORPS

### 10 Student Reps Per Campus

Deploying 10 student leaders per institution (50% female student executives) driving hostel room-to-room activations and campus events.

3. CONFESSIONS VIRALITY LOOP

### WhatsApp Status Sharing

Anonymous campus secrets, lodge scandals, and romance confessions generate viral screenshot loops shared organic to WhatsApp Status.

4. 224-CLUSTER SEO & GEO ENGINE

### 133,087 Words of Campus SEO

224 published canonical pages across 10 campus clusters, capturing high-intent organic student traffic across Google, ChatGPT, and Perplexity.

NORTH-STAR METRIC

### Campus Density → Meaningful Matches → Retained Users → Paid Actions.

We do not measure vanity global downloads. We measure active users per campus hostel and department. When 500 students in a faculty are active, the network effects become unbreakable.

Target: 1,500 active students per campus across top 10 university hubs.

# The Product is Built for a Category Where Trust Directly Affects Monetization.

Protecting Female Students is the Core Driver of Network Liquidity and Revenue

### NDPA 2023 Statutory Privacy Compliance

Full compliance with the Nigeria Data Protection Act 2023. Explicit biometric consent, self-service account deletion, and immutable acceptance audit ledger.

### Vision AI Photo Verification

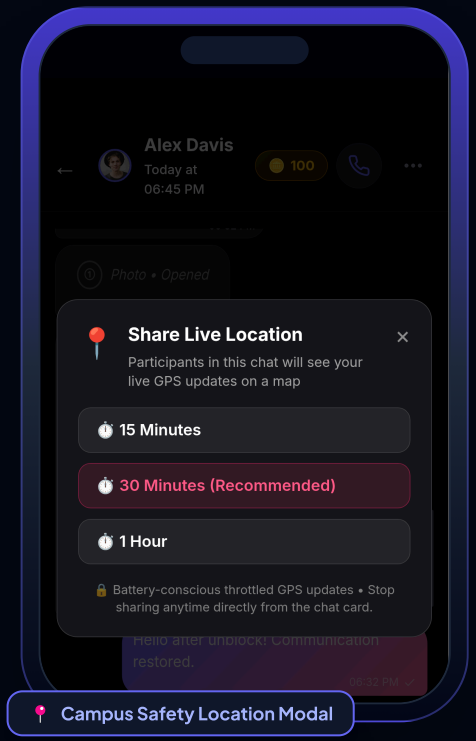

Automated deep learning model screens profile pictures. Rejects multi-face group pictures, non-human graphics, or internet downloads before issuing verified badges.

### Agora RTC Phone Number Masking

Students speak and video chat within the app without exchanging private WhatsApp phone numbers, eliminating off-platform stalker risks.

### Ephemeral Campus Location Sharing

Students can choose to share their location only during active campus hours with trusted matches, with zero persistent background tracking.

# The Moat is Not a Feature. It is a Campus Network That Gets Harder to Replicate as Density Grows.

5 Interlocking Compounding Layers Defending The College Date Ecosystem

**LAYER 01**

### Campus Graph

Department, level, faculty, and hostel hierarchies create structured local relevance that generic global apps cannot replicate.

Hyperlocal Density

**LAYER 02**

### Verified Identity

A trusted, verified student identity layer recognized across campus, setting the standard for genuine student interactions.

High-Trust Moat

**LAYER 03**

### Behavioral Data

Matching, conversation frequency, and lifestyle engagement data continuously refine discovery and match quality over time.

Data Compounding

**LAYER 04**

### Community Content

Anonymous confessions, student stories, and campus memes create reasons to return daily even when not actively matching.

Daily Retention

**LAYER 05**

### Transaction Layer

CD Coins, virtual gifts, and academic service escrow embed The College Date directly into the student micro-economy.

Economic Lock-In

# The Next Phase is About Proving Repeatable Growth, Not Adding Endless Features.

Disciplined 18-Month Execution From Nigerian Campus Density to Regional Expansion

MONTHS 0-3 • Q1

## Trust & Conversion

- Finalize Termii SMS + Paystack automated billing
- Scale verified badge adoption to 40%
- Launch campus ambassador referral tracking
- Target: 5,000 verified students

Milestone: Conversion Flow

MONTHS 3-6 • Q2

## 5 Core Campus Density

- Deploy ambassador network at UNILAG, UNIPORT, OAU, UNIBEN, UI
- Official Students O'clock exclusive broadcast
- Host weekly campus confession drop events
- Target: 20,000 active students

Milestone: Campus Liquidity

MONTHS 6-12 • Q3-Q4

## Monetization Scale

- Scale CD Coins virtual gifting & cashout
- Launch student service escrow marketplace
- First campus brand sponsorships
- Target: 50,000 students • Breakeven

Milestone: Cashflow Positive

MONTHS 12-18 • YEAR 2

## Pan-African Expansion

- Launch Ghana pilot (Univ. of Ghana, KNUST)
- Launch Kenya pilot (Univ. of Nairobi)
- iOS Native client release
- Target: 100,000 students across Africa

Milestone: Regional Scale

# We Are Looking for Capital to Turn a Working Product into a Repeatable Growth Engine.

Seeking $150,000 USD Pre-Seed Investment to Accelerate Campus Density and Achieve Breakeven

INVESTMENT STRUCTURE

## $150,000 USD

**Pre-Seed Round (₦225,000,000 NGN)**

Turn a fully deployed, hardened Android and Web platform into a cashflow-positive, dominant campus network across Nigeria's top tertiary institutions.

- **Instrument:** Standard SAFE (Simple Agreement for Future Equity)
- **Runway:** 18 Months to Operational Breakeven
- **Target Outcome:** 100,000 Active Students across 15 Hubs

Parent Entity: Neway Marketing Enterprises

ILLUSTRATIVE USE OF FUNDS

# Built by Technical Founders With Proven Execution & Grassroots Reach.

Software Architecture Mastery Meets Deep Campus Student Media Distribution

## Godswill Godlife Onah

Founder, CEO & Lead System Architect

godswill@thecollegedate.com

- **5+ years of digital systems leadership** and full-stack software architecture.
- Founder of **Neway Marketing Enterprise** (registered parent entity).
- Personally engineered CD 2.0 full-stack architecture: Agora RTC audio/video, PostgreSQL RPCs, automated QA suite, and 224-cluster SEO engine.
- Verified public profile: linkedin.com/in/god-swill-godlife-07191221a

Execution Focus: Systems, Scalability & Mobile Hardening

## SOKEPIRIM Jackreece

Co-Founder & Head of Campus Growth

jackreece@thecollegedate.com

- **Founder of Official Students O'clock**, reaching **50,000+ daily student followers** across Nigerian universities on WhatsApp.
- Mobile application developer (Flutter/Android) with deep expertise in student digital habits.
- Direct relationships with student union executives, departmental leaders, and campus creators across Nigeria.
- Leads our on-ground campus ambassador corps and organic distribution loops.

Execution Focus: Campus Growth, Student Media & Brand Reach

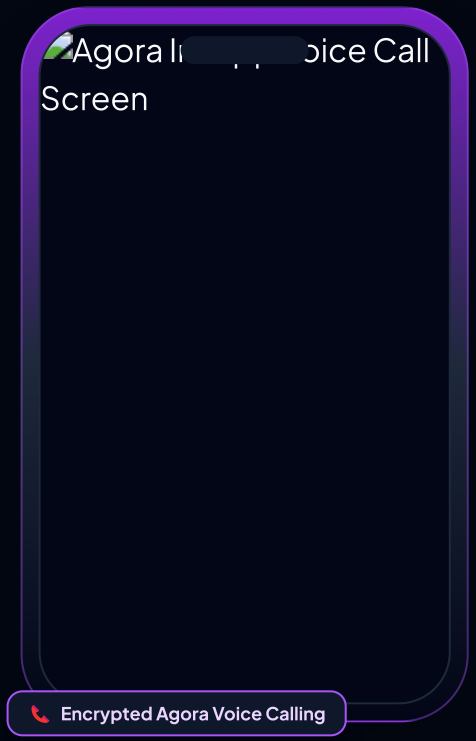

# Build the Campus Relationship Graph.

The Product is Live. The Market Demand is Proven. The Distribution Flywheel is Armed.

LIVE ON GOOGLE PLAY & WEB

## Own the African Campus Relationship Graph.

We are moving from product-building mode into rapid, capital-efficient campus expansion. Join us in building the digital town square for Africa's 17.5M university students.
